

## Maths Department home learning Friday 5<sup>th</sup> March.

-All pupils will be set work to do via the MyMaths website.

Login: Woodhousems

Password: Chart

Pupils will have their own portal passwords where they can access the work that their teachers will set.

Pupils are encouraged to work through the lesson content before attempting the homework tasks.

***Due to the volume of traffic accessing the Mymaths website, it may appear that the work pupils are completing is not being saved. Although this is the case for pupils, the results can still be accessed and monitored by teaching staff. Please do not be disheartened if it appears that the work being completed is not being stored – this is something that will hopefully be corrected by Mymaths.***

-If pupils complete the work in the allotted time they can:

- Attempt any of the revision / booster tasks on mymaths.
- Access the games section on mymaths.
- Access the myminimaths website. Here, pupils will find an array of challenges, although the main area to focus on will be the Arithmetic practice section.
- Login to TT rockstars and attempt the challenges available.

*All of the above can be accessed via home PC's, Laptops, Tablets and Smartphones.*

*The Maths department would like to say a massive well done to all of our pupils for the effort, commitment and maturity shown over the last 2 months and we look forward to seeing you all back in school next week!!!!*
