

Music set for Year 5 – Friday 5th March

Hi everyone,

This week in music we have been continuing with the *Rock Anthem* unit and listening to some rock songs.

For your task I would like you to research *rock music* in more detail and create an interesting fact file (try to include 10 points) about the different things to do with rock music, you can do this on paper then bring into school next week. You will need to use the internet and the poster (don't just copy) below to find out the information.

You need to include:

What is a rock song?

What is a rock anthem?

Where does rock music come from? (country)

When did rock music start?(date)

Name some of the rock bands

Name some of the more famous rock bands

Try to make this colourful and interesting and include 10 points. Bring into school next week !

This is an example with information that you can use if you want to!

Rock

Musical Styles Through the 20th Century

- Rock music is a genre that often features guitar, bass, drums and keyboard sounds.
- The electric guitars in rock are often heavily amplified - creating a distorted sound that is rich in harmonics.
- Rock music often contains complicated guitar solos and catchy 'riffs'. A riff is a repeated pattern of notes or chords that form the basis of a song.
- A solid backbeat created by the drums and bass is a common feature.
- Rock bands often have a lead vocalist, with other band members providing backing vocals.
- In the 1970s, hard rock bands, such as Queen, Led Zeppelin and Black Sabbath were at their height of international fame.
- Other subgenres of rock music emerging in the 20th century include: country rock, grunge, progressive rock, new wave, punk rock, post punk and heavy metal but this list could be much longer.

Notable Artists

- Bob Dylan
- Lynyrd Skynyrd
- Nirvana
- Electric Light Orchestra
- Ramones
- Deaf Leppard
