

### Year 7 MFL Work - Friday 5th March

Conduct research into the school system in a Spanish-speaking country (don't forget, this can be a country in Europe or South America). Produce a leaflet / poster / fact file on school in your chosen country. Include some ways in which school is the same as in the UK and some ways in which it is different. Some ideas to get you started:

- What time does school start and finish?
- What subjects do they learn?
- What different schools do they have for different ages (e.g. in Biddulph we have first, middle and high schools)
- What exams do they take?

Here are some useful websites to get you started with your research:
