

Woodhouse Academy Homework Guide

- English reading and maths skills sheet homeworks are set weekly.
- Non-core subjects will set homework half-termly for all subjects according to the timetable. This will be set at different times and given out by the class teacher.
- All non-core homework tasks are based on developing tier 3 subject-specific language.
- The tasks are also designed to help pupils revise the key words, their meaning and their spelling and pupils will be encouraged to use the words appropriately in their spoken and written work.
- Students may be given the same type of activity (e.g. crossword, wordsearch, wordwall etc) but the language used for each subject will be different.
- Their teacher will tell children when the homework is due in.
- Children should write homework into their planner in class when the homework is given to them.
- Project homeworks are optional and will be given out and explained to the children in the half term indicated on the subject sheets on the website.
